

# Your Future Your Choice

Dear Student

You will be well aware that you have to make very important choices as you come to the end of Year 11. These choices will shape your future learning, career and life.

Our job in this information booklet is to set out what we can offer at Thorpe St Andrew Sixth Form. It is for you to decide if this meets your needs and is right for you.

The Sixth Form here is different to other schools and colleges in the area. The extensive courses offered as well as the support, the personalisation of your learning and treating you as young adults are all important and an integral part of our Sixth Form.

We also believe that your learning, while in the Sixth Form, should go beyond formal classroom teaching. Opportunities to grow and develop into well rounded individuals are important for you and equally so to potential employers and universities. These opportunities form part of the offer we make to you and you accept if you join us.

We are proud of our excellent record of A Level examination results, our exceptional performance in a range of vocational Specialist Qualifications and the progression of students gone onto university (including Oxbridge), apprenticeships or into employment. This was recognised when the school was asked to be the only school in the Eastern Region to be a T Level provider. This adds to our rich curriculum mix and opens up new and exciting opportunities in the fields of Digital and Education. Remember, that all our courses provide a route to university, apprenticeships or the world of work and we will support you in which ever choice you make.

Overall, the school is most proud of its support for each individual student. Each student is prepared, equipped and guided to ensure they have both academic and the wider skills necessary to make their next steps after the Sixth Form, and many former students return to the school to share their experiences, therefore helping our current students to develop a vision and direction for their future.

All this prepares you to play your part in the world of work and in the community in which you will live is our ultimate goal.

I wish you every success.

Penny Bignell  
Principal
